

iVIEW LIBRARY

MASTER DATA GOVERNANCE FOR QLIK

DESCRIPTION

Master the art of Item management with iVIEW Library: Your centralized Library for optimizing Qlik applications and streamlining content management. Learn to effortlessly access and deploy data, dimensions, and calculations across applications. Discover the convenience of generating applications "on-the-fly" without opening Qlik. Simplify migration with automatic content reading, expression conversion, and centralized KPI definitions. This course is available for both Qlik Sense and Qlik Cloud environments.

COURSE PREREQUISITES

- Qlik Professional license
- Building an app tutorial (found under Tutorials in the online help of Qlik Sense Desktop)

AUDIENCE

- Business Users
- Business Analysts
- Data Architects and QlikView/Qlik Sense developers who want to know more about the self-service capabilities of Qlik Sense or Qlik Cloud.
- Data Intelligence specialists who want to manage their KPIs and apps through one centralized system.

COURSE OUTLINE

- Key concepts of iVIEW Library – how it is a single point of truth for Qlik content, providing one central library for all Qlik applications.
- Understanding the centralized hub for Qlik applications
- Conveniently accessing and utilizing data, dimensions, and calculations and removing duplications
- Streamlining business content management

- Deploying and sharing real content and KPIs across multiple applications
- Quick app creation, data population, and seamless item addition
- Simplifying the migration process for Qlik
- Automatic content reading, expression conversion, and centralized KPI definitions
- Ensuring compatibility and flexibility for various setups (Qlik Sense and Qlik Cloud)
- Wrapping up and next steps

SKILLS LEARNED

- Conveniently access and utilize data, dimensions, and calculations from all Qlik applications in one organized centralized hub – iVIEW Library.
- Master centralized item management with iVIEW Library, streamlining content management.
- Deploy and share real content and KPIs seamlessly across multiple applications,
- Generate applications "on-the-fly" without the need to open Qlik Sense, allowing quick app creation, data population, and seamless item addition. Seamless deployment into your Qlik environment.
- Simplify the migration process with automatic content reading, on conversion, and centralized KPI definitions when transitioning your Qlik environment.

DURATION

0.5 day

NOTE

Informatec runs a Data Intelligence Academy (DIA) and offers different trainings. When purchasing a DIA Training Card, you acquire the right to participate at an Informatec course (Private or Public / Virtual or Classroom). DIA Training Cards are valid for 12 months from the date of purchase and can be used for any Informatec training at any training centre. The dates stated publicly are not binding and will only be held if the minimum number of participants is reached. There is no entitlement to delivery on the desired date. The prices of the DIA Training Cards are per person and per day, plus VAT. The invoice will be issued after the order has been received and is due independently from the date of the training. The Informatec [General Terms and Conditions](#) are valid.

CONTACT

We are at your disposal for further information and for an all-inclusive organization of your training. Contact us and become an iVIEW Power-User!
